

Concrete Hoppers

Concrete Hoppers - This attachment is a self-dumping hopper which automatically starts to unload as soon as bumper release touches the side of a dumpster. After dumping is completed, the hopper goes back to a locked and upright position. This piece of machinery even comes together with a cable which enables operation from the seat of the lift truck so as to have the choice of manually unloading the hopper. There is a locking chain provided in order to secure the hopper to the fork truck. This product is made with reliable and consistent robotic welds for utmost strength. The lift truck dumping hopper also has a blue powder coat finish so as to maintain durability.
