

## Meritor Part

Meritor Parts - Meritor is a premier global supplier that is proudly established on a 100 year custom of quality and service. They focus on a broad range of integrated systems, modules and components to original equipment makers and the aftermarket for the transportation and industrial sectors.

Meritor values the wishes of their clients to guarantee their success while priding itself in the company's unique energy and feels this output of energy to be their aggressive advantage in their international operations. Meritor begins with a culture that values diversity of individuals and their broad thought processes. Operating in 19 nations and employing more than 11,200 people, Meritor promotes collaboration and innovation among a team of knowledgeable experts.

By only employing future focused staff, Meritor strongly feels these top-caliber people would be able to rapidly adapt to changing surroundings and demonstrate the commitment and performance needed so as to reach results in the competitive materials handling business. The business empowers their teams to make sound business decisions so as to improve the overall success of the company. In return, Meritor provides all their employees various opportunities for professional and personal development.

Their Advanced Engineering team is at the forefront of components and system engineering which comprise drivelines, axles, suspension and braking systems for heavy duty and medium trucks, off-highway vehicles, buses, military vehicles and trailers. The Meritor Advanced Engineering team is growing. They started a new technical center in Bangalore, India in September 2009 in order to lead their advanced product development initiatives that represent the entire Asia Pacific region. This particular team is even responsible for supporting the needs of their global engineering personnel.

Meritor's dynamic and customer focused Quality team is dedicated to ensuring optimum processing at their production plants and aftermarket distribution facilities which are situated around the world in 19 nations and in 5 different continents.

They have their supplier network which is specially situated to support the development of the business. Every regional team has globally supported initiatives, quality systems and centralized in Materials Engineering and Six Sigma. Meritor's growing Six Sigma program encourages a fact-based, data-driven approach to decision making in each and every part of the trade. The DFSS or Design for Six Sigma ensures product reliability in each region. The team is even included transactional Green Belts who apply Six Sigma tools to business techniques and apply lean methods.
