

## Barrel Clamps

Barrel Clamp - A Barrel Clamp is actually a hydraulic or mechanical accessory designed for a forklift. It can be used to clutch the object you want to transport utilizing the lift truck and is often utilized for handling barrels, kegs and paper rolls. Some types of barrel clamp attachments even have a revolving function. Like for instance, the rotate function enables the individual operating the forklift to be able to put in a vertically stored paper inside the horizontal intake of a printing press.
