

## Rockwell Parts

Rockwell Parts - AxleTech International is a leading supplier in the world of specialty vehicle drive-train systems and parts together with off highway vehicles. The company prides itself on being its customers' chosen supplier. AxleTech strives to exceed and meet their clients' expectations for quality, service, technology and delivery. They believe in working in an environment that supports the utmost integrity with empowered teamwork, along with a persistent pursuit of results.

AxleTech International falls under the umbrella of General Dynamics. They place great emphasis on being an environmentally conscious company and providing a safe surroundings for their employees to work in. Also, they have implemented many programs within the company so as to help articulate these values within their business policy. AxleTech gladly shares this policy and welcomes interested parties to offer them with whatever questions or comments, since they are happy to promote and share this policy with a greater understanding of their efforts. They are extremely committed to preserving and improving the natural environment. AxleTech has an EHS program which not just protects the natural environment but which even actively protects their neighbors and workers too.

AxleTech prides themselves as being a ground-breaking drive-train solutions provider. They specialize in designing and manufacturing planetary axles meant for both commercial and military applications. These applications vary from construction equipment to airport ground support. AxleTech specially designs axles so as to meet specific application demands. They have over one thousand various axle specs within their current offering. With more than one hundred years of experience and history, AxleTech proudly supplies the most complete solution for whichever of your axle needs. The company is well known in numerous military and commercial applications. They offer complete axle assemblies for aftermarket replacement needs, along with servicing axle needs for OE production. Their high mobility ISAS have extra details that could be seen in the "ISAS" product selection.
