

Spreader Bar for Forklift

Spreader Bar for Forklifts - ELME has been proudly operating since 1974, becoming the largest independent spreader company all-around the globe. They are a dedicated manufacturer of spreaders meant for numerous several applications like the swap bodies, trailers, and handling of containers.

Engineering is done in house by means of utilizing the newest FEM tools and CAD systems. The ELME company now has more than 125 personnel. Their spreaders are supplied to reach straddle carriers, lift trucks, gantry, quayside, ship-to-shore cranes and stackers all-over the globe.

The ELME product series offers spreaders for a variety of trailer and container handling operations. Some of their inventory consist of: Harbour Cranes, Lift Trucks, Straddle Carriers, Ship to Shore Spreaders, Spreaders for Rail mounted and Rubber Tired Gantry Cranes, Reach Stackers and a wide array of additional parts.

ELME production and manufacturing is done in a highly automated purpose built factory. In 2008, they created more than 1150 spreaders by using top quality elements to ensure reliability and excellent standards while offering reasonable prices. Major features of ELME comprise design simplicity, market reaction and innovative modular spreader concept.
