

Forklift Electrical Part

Forklift Electrical Parts - Lift trucks can be particularly marked to be utilized in unsafe locations. A labeled lift truck denotes the design has met the lowest standards of ANSI/UL 558 meant for engine powered lift trucks or ANSI/UL 583 used for electric forklifts for the type of label put.

The application for labels meant for lift lift trucks could be found in National Fire Protection Association NFPA 505 - Powered Industrial forklifts including: Areas or Use, Maintenance and Operation, and Type Designations. Ask your local insurance carrier and Fire Marshall for more information about the approved uses of industrial powered trucks in your application.

If the particular forklift meets the outlined standards, labels can be put. A labeled lift truck will show the type of designation put on the nameplate and will have a properly corresponding label put.
