

TCM Forklift Part

TCM Forklift Part - In the international business of material handling, forklifts play an important part for transporting industrial goods. Primarily innovated as industrial vehicles in the 1930s in the U.S., forklifts gained popularity after World War II during the 1940s. Becoming an efficient and reliable means to material handling solutions, the practicality and need of these equipment spread worldwide.

In the year 1949, founded by Mr. N. Niwa, the original Toyo Carrier Manufacturing Company Limited, which was later named Toyo Umpanki Co, was established. Currently the company is simply called TCM Corporation. Throughout the years, TCM forklifts have become a global leader in lift truck manufacturing and have built a solid reputation in the industry. TCM started constructing forklift manufacturing locations outside of Japan in the 1980s and is presently engaged in forklift manufacturer at three foreign factories in China, the United States and Europe.

TCM proudly manufactures many models of industrial forklifts with more than 50 years of accumulated technology and expertise, making their products recognized and used all around the globe. Characterized by strong initiatives and energetic staff, TCM continues to look toward the future and aspires to become a world-class leading company.
